

FINALLY

a test you don't need to study for!

WHAT IS A PAP TEST?

- ❖ it is a simple test used to detect changes in the cells of the cervix

WHO NEEDS IT?

- ❖ all women who have started having sexual intercourse

WHY SHOULD THE TEST BE DONE?

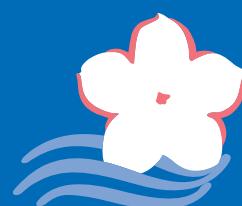

- ❖ early detection of cervical cancer can save your life!
- ❖ if abnormalities are detected early, treatment is simple and a complete cure is possible

HOW CAN I PROTECT MYSELF?

- ❖ use latex condoms
- ❖ choose not to smoke
- ❖ have a regular Pap test
